DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 6/9/06 has been entered.

Response to Amendment

Amendment filed 4/24/06 has been entered and considered by the Examiner. Currently, claims 1-9 are pending in the instant application.

Allowable Subject Matter

Claims 1-9 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claim 1, the reference of the Prior Art of record fails to teach of suggest the combination of the limitations as set forth in claim 1, and specifically comprising the limitation a method for manufacturing a discharge tube having a glass tube into which rare gas is put, a glass bead for sealing

Art Unit: 2879

an end of said glass tube, and an electrode lead to be fixed to said glass bead, said method comprising the steps of: applying heat to only a predetermined adhesion area of the electrode lead by use of a heat application device to oxidize only a surface of a predetermined adhesion area of said electrode lead; and fixing said glass bead to said adhesion area of said electrode lead. In the remarks filed 4/24/06, the persuasive argument is found on page 5, the second and third paragraphs.

Regarding claims 2-9, claim2-9 are allowable for the reasons given in claim 1 due to their dependency status from claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
